Regional Performance Dashboard

THE GEOGRAPHY PROBLEM

Bengaluru contributed 3.5% of total national revenue from a single city.
Udupi? 0.54% – and the forecasting model flagged it as the #1 high-risk region at 23% risk score, followed by Shivamogga and Davanagere at 19%.

Sales Force Analytics Dashboard

THE PEOPLE PROBLEM

Out of 50 sales officers, Ravi Pillai closed ₹12.0M – more than 2.3× the team average of ₹5.20M.

The bottom 20% of reps sat under 1.5% of individual target achievement.

That's not a motivation problem. That's a coaching, territory, or hiring pipeline problem – and it was invisible before this dashboard.

Product Intelligence Dashboard

THE PRODUCT PROBLEM

Two categories led the business:

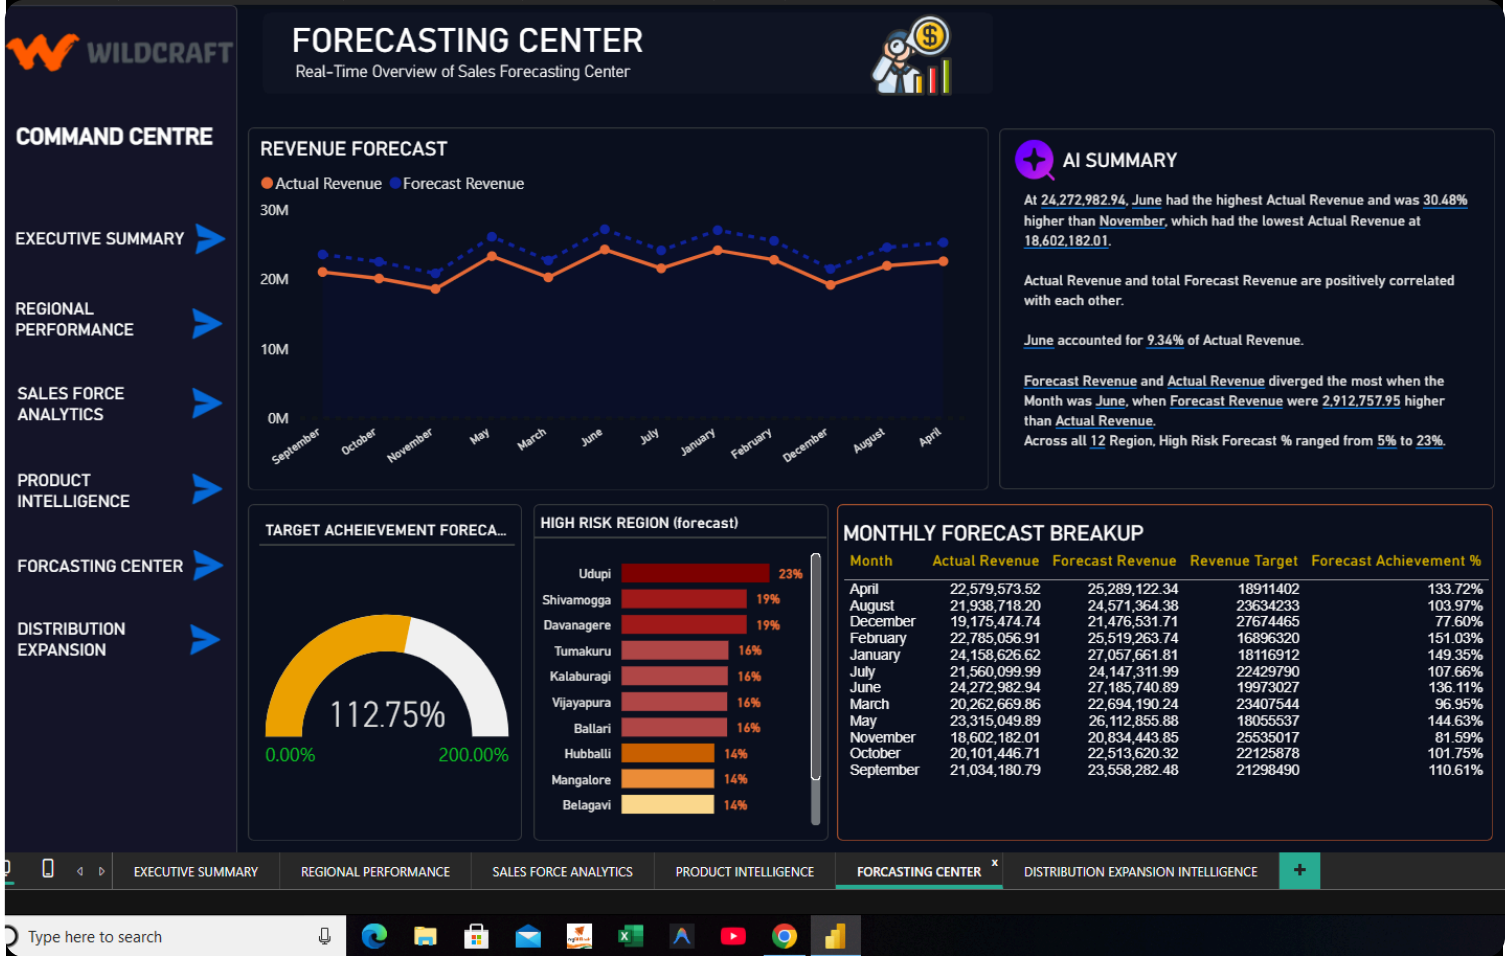

→ Footwear: ₹51M | +103.79% YoY

→ Backpacks: ₹52M | +103.20% YoY

Meanwhile, Accessories grew just 91.97% – below the company average – despite likely receiving proportional marketing and shelf space.

Forecasting center Dashboard

EXPECT NEXT QUARTER ?

AI-powered sales forecasting system that predicts ₹22M-₹27M monthly revenue, achieved 112.75% forecast target attainment, and proactively identified Udupi (23% risk) as the highest-risk market for leadership action.
